

MODEL APPLY IN DATASET

1. Random Forest Regressor
2. XGBoost Regressor
3. LightGBM Regressor
4. CatBoost Regressor
5. Extra Trees Regressor
6. Gradient Boosting Regressor
7. HistGradientBoosting Regressor
8. AdaBoost Regressor
9. Decision Tree Regressor
10. Support Vector Regressor (SVR)
11. KNeighbors Regressor
12. ElasticNet
13. Ridge Regression
14. Bayesian Ridge
15. MLP Regressor (Neural Network)

Note: Models with a train–test accuracy gap greater than 5% will be excluded. Models with an accuracy below 80% will also be removed. Additionally, models achieving an accuracy above 97% will be excluded to avoid potentially overfitted results, In shā' Allāh.
